

Sarabec Limited

Environmental Policy

Sarabec Limited, located in Middlesbrough, Teesside, UK manufacture and supply assistive equipment and accessories for people with hearing difficulties.

Many of Sarabec Limited activities, products and services have an impact on the environment and the company is committed to managing these in a responsible and effective way. All activities carried out by the organisation comply with relevant environmental legislation, including importantly for our sector the Waste Electrical and Electronic Equipment (WEEE) Regulations and the Restriction of Use of Certain Hazardous Substances (ROHS) Regulations. Sarabec Limited is also committed to the prevention of pollution and aims to continuously improve environmental performance through the support and involvement of all employees and any other interested parties.

The company aims to:

- Continue to choose local suppliers where possible to reduce the environmental impacts of transportation
- Choose sea freight over air freight, where possible, when importing products from overseas, to reduce our carbon footprint.
- Maximise efficient use of natural resources through best practice resource efficiency measures
- Operate a purchasing policy that favours environmentally friendly products and services
- Actively minimise waste, based on the principle of reducing, reusing and recycling
- Continue to operate a repair service, thereby reducing the amount of waste products generated by our end users
- Maintain our commitment to improving the energy efficiency of our products
- Reduce the amount of energy consumed during office hours by efficiently using equipment and operating a 'switch off when not in use' policy
- Encourage clients, suppliers and stakeholders to adopt a responsible approach to the environmental principles

This document is communicated to all employees and relevant parties and is made available to the public. It shall be the responsibility of everybody in the company to ensure that the policy is applied at all times.
