On handset:
1. Press ⌧, and ▼/▲ to select **SET SOS**.
2. Press ⌧, and ▼/▲ to select **SOS MSG**.
3. Press ⌧ and ▼/▲ to select **PLAY**.
4. Press ⌧ to start SOS message playback.
5. Press ⌧ or **5** key to stop SOS message playback.

Picture big button memories
You have the choice to store 3 picture memories and one direct memory on the base.
On Base:
1. Press ⌧MENU/OK, and ▼/▲ to select **PHOTO MEM**.
2. Press ⌧MENU/OK, and ▼/▲ to select **M1** to **M4**.
3. Press ⌧MENU/OK and ▼/▲ to select **ADD** or **EDIT** and **VOICE TAG**.
4. Press ⌧MENU/OK then enter number.
5. Press ⌧MENU/OK then enter name.
6. Press ⌧MENU/OK to save.

On handset:
1. Press ⌧, and ▼/▲ to select **PHOTO MEM**.
2. Press ⌧, and ▼/▲ to select **M1** to **M4**.
3. Press ⌧ and ▼/▲ to select **ADD** or **EDIT** and **VOICE TAG**.
4. Press ⌧ then enter number.
5. Press ⌧ then enter name.
6. Press ⌧ to save.
You have the option to enter a voice name in choose **VOICE TAG** and **RECORD** at the point 3.
If you receive a call with the number registered with a voice tag, you can hear the voice name on the base and on the handset.
✎**NOTES:**
● To use a picture big button memory in idle mode, press the picture on the base.
● If you want to pass the call from the speakerphone to the handset, lift the handset off the base to take the call.
● If the handset is not placed on the base, press 🔊 to take the line in speakerphone mode and place the handset on the base.

Answering machine
Your telephone base includes a telephone answering machine that records unanswered calls when it is on. The answering machine can store up to 59 messages within the maximum recording time of approximately 15 minutes. As well as recording incoming messages, you can record memos for other users of your phone.

Switching Answering Machine On/Off
On Base:
Press ⌧ **ANS ON/OFF** to switch the answering machine **ON** or **OFF**.
On handset:
1. Press ⌧, and ▼/▲ to select **ANS.SYS**.
2. Press ⌧, and ▼/▲ to select **TAM ON/OFF**.
3. Press ⌧ and ▼/▲ to select **ON** or **OFF**.
4. Press ⌧ to confirm.

Play Messages on TAM
If you have new messages, the display will show e.g.**2 NEW MESSAGES**, which means you have 2 new messages. The new messages are played first, and then are saved as old messages, until they are deleted. Old messages are played again after all new messages are played completely.
On Base: Press ▶/∎ **PLAY/STOP** to start the playback.
On handset:
1. Press ⌧, and ▼/▲ to select **ANS.SYS**.
2. Press ⌧, and ▼/▲ to show **PLAYBACK**.
3. Press ⌧ to start message playback and the screen displays the date and hour of the message received.
4. During message playback, press ▼/▲ to adjust the message playback volume respectively.
✎**NOTES:** After new message is played, the new message will be saved as an old message automatically unless it is deleted.
5. Press ⌧ and ▼/▲ to select **STOP**, **FORWARD**, **PREVIOUS** or **DELETE** to perform the following functions during message playback.
● **STOP:** Stop the current message playback and return to the ANS. MACHINE menu.
● **SLOW ON:** to reduce the speed of the playback.
● **FORWARD:** Skip to play the next message. The date and hour information of the next message will display if there is next message.
● **PREVIOUS:** Skip to repeat playing the current message from the beginning. The date and hour information of the current message will display.
● **DELETE:** Delete the current message and the next message will be played.
6. Press ⌧ to confirm the setting.

Set the Answer Delay
You can set the number of rings before the answering machine answers and starts playing your OGM. You can set the answering machine to answer after two to ten rings or TIME SAVER.
The TIME SAVER function answers calls after 6 ring signals, until the first new message has been registered then the answering machine switches to answering after approximately 2 signals. This is useful when using remote access; if you call up the answering machine and there is no reply after four rings it means there are no messages recorded and you can hang up before you are charged for the call.
On handset:

1. Press ⌧, and ▼/▲ to select **ANS.SYS**.
2. Press ⌧, and ▼/▲ to show **SET TAM**.
3. Press ⌧ and ▼/▲ to select **ANSWER DELAY**.
4. Press ⌧ and ▼/▲ to choose: **2 RINGS, 4 RINGS, 6 RINGS, 8 RINGS, 10 RINGS** or **TOLL SAVE**.
5. Press ⌧ to confirm the setting.

REMOTE OPERATIONS
If you are away from your home, you can call your answering machine to switch on or off the answering machine and listen to your messages remotely using another tone-dialing phone.
1. Place a call from a tone-dialing phone.
2. When the answering machine answers the call and starts playing OGM, press ✶.
3. Enter the 4-digit Remote Access PIN (default PIN is **0000**).
4. Press the following keys to carry out your desired function.

KEY	FUNCTION	
	While message is not playing	While message is playing
2		Delete the current message playback
4		Repeat playing the current message from the beginning. Press twice to skip backward to the previous message
5		Stop the current message playback
6		Skip forward to play the next message
7	Turn on the answering machine	
9	Turn off the answering machine	
✶	Enter the 4-digit remote access PIN	

✎**NOTES:**
● When your answering machine memory is full, the answer mode will change to **ANSWER ONLY** automatically.
● It will change to **ANS & RECORD** mode automatically after some messages have been deleted.
● You cannot delete new messages until they have been listened to.

FUNCTION MESSAGE ALERT
When you have a new message, you can hear a beep every 10 seconds. If you want deactivate this beep, follow the procedure.
Using the handset:
1. Press ⌧, and ▼/▲ to select **ANS.SYS**.
2. Press ⌧, and ▼/▲ to show **SET TAM**.
3. Press ⌧ and ▼/▲ to select **MSG ALERT**.
4. Press ⌧ and ▼/▲ to select **OFF**.
5. Press ⌧ to confirm.
