

Recycling and the WEEE Directive

The European-wide WEEE Directive (Waste Electrical and Electronic Equipment) requires that WEEE is disposed of in an environmentally friendly way at the end of its working life, minimizing the impact on the environment and promoting the highest possible level of reuse and recycling.

WEEE should not be disposed of along with normal household waste. WEEE product is usually marked with a picture of a Wheelie Bin with a cross against it.

WEEE can be disposed of through local civic amenities sites and approved treatment facilities.

Click on www.recycle-more.co.uk to find your local recycling facility.

Sarabec is defined as a producer under the WEEE Regulations because we sell our own brand Electrical and Electronic Equipment (EEE) in the UK. Sarabec pays a membership charge on our customers' behalf to a Producer Compliance Scheme run by Comply Direct Ltd. Membership of this scheme fulfils our obligations as a Small producer in accordance with the Waste Electrical and Electronic Equipment Regulations 2012.

We also pay the Environmental Agency an annual Fee. Sarabec's Environment Agency Producer Registration Number is WEE/EE0067TX
