

How to set timer

You can set the timer to 60, 120 or 180 minutes.

- 1 Double press the + button to set the timer to 60 min, double press again for 120 min, and again for 180 min. 60 min, 120 min, 180 min, clear timer setting.. it repeats this cycle.
- 2 The corresponding light and a voice prompt will remind you of the timer set.

NOTE: In Bluetooth mode, if there's no device connected, the timer will not work. In white noise mode, the timer will always work.

How to use white noise

SnoozeBand Deluxe comes with built-in white noise, so you can enjoy relaxing audio even without a Bluetooth connection.

- 1 Double press the - button to enter the White noise mode
- 2 Short press the middle button to play/pause music
Long press the + and - button to switch between tracks
Short press the + and - button to adjust volume

NOTE: At anytime you can switch between the bluetooth and White noise mode by double pressing the - button.
In White noise mode, the bluetooth will be disconnected

Washing the SnoozeBand

- 1 Carefully remove the components of the eyemask before washing
- 2 Hand or machine wash with cold water and air-dry

Turning On/Off

Press and hold for 3 seconds

Pairing with your device

- 1 Turn on Bluetooth
- 2 Turn on the SnoozeBand
- 3 Connect to Snoozeband Deluxe on your device

> 3 s

After paired successfully, the blue light will flash for 10 seconds. When switched on next time, it will automatically search for and attempt to connect with the last paired device. If you want to pair it with a new device, make sure it's disconnected from the previously paired device.

NOTE: To save power, it will switch off automatically if there's no Bluetooth connection for 3 minutes.

Charging

Make sure the device is switched off, open the zipper on the eye mask and you will see the USBC charging port.

- 1 Connect the Type C USB cable to the charging port and the other end into a power source with ~5V (eg. phone charger)
- 2 The LED light will turn red whilst charging. It will turn blue as soon as the battery is fully charged (approx. 2 hours). Please do not overcharge as this might damage the battery over time.

LED Indicators

Status	Indicator
Bluetooth pairing mode	Flashing red/blue lights
Bluetooth connected	Blue light flashes for 10sec

180min Timer	Solid green light for 10sec
Timer cleared	Double flash green light
Charging/Charging complete	Solid red light/solid blue light

How to fasten the band

The Velcro is hidden away inside the fabric, to access it please flip the pocket at the end of the Snoozeband inside out fully. You are now able to secure the band to the most comfortable position with the adjustable velcro strap. For storage/transport, please flip the velcro inside again to protect the velcro and roll the band up.
